

start-stop AGM 95

12V 95Ah 850A

These Q-Batteries starter batteries with proven AGM technology are also suitable for on-board supply in motorhomes or boats. In addition to high shock and vibration resistance, these maintenance-free starters are characterized due to a higher cycle capability and are also ideal for use in vehicles with start-stop systems or high Energy requirement.

Applications:

modern passenger cars with start-stop system, tractors, combine harvesters, Unimog, construction machinery (dredge, vibrators), taxis, buses & special vehicles, special applications with very high power requirements (e.g. sound systems, TV, auxiliary heating), caravans, campers and boats.

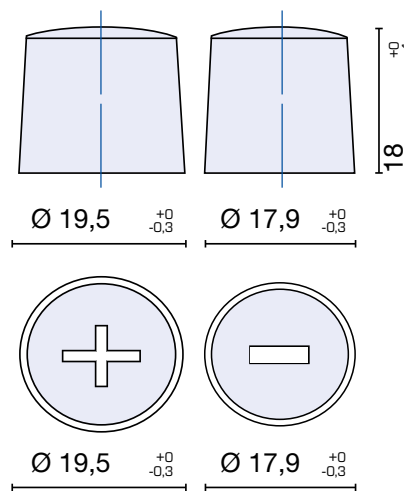

Advantages:

- maximum capacity
- continuous power
- leakproof
- vibration and cycle-proof
- maintenance-free
- low self-discharge

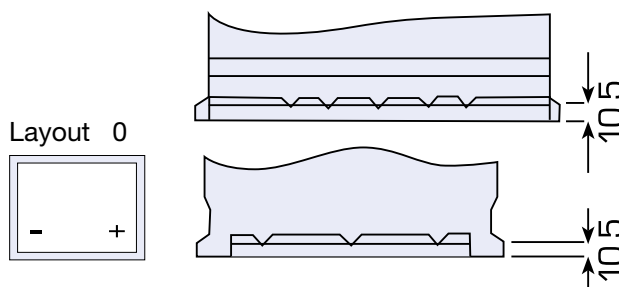

Technical features:

Voltage per Unit:	12V
Capacity:	95 Ah
Could Cranking Amps (CCA):	850A
Weight:	18 kg +/- 3%
Layout:	0 (positiv pole right)
Base Hold-down:	B13

A-Pol

Base hold down B13

Dimensions:

353 mm length x 175 mm width x 190 mm height
